Subject: letter of support

7/25/14

Dear Haines Borough Assembly,

We would like to lend our support for the Haines Brewery in acquiring property in the down town area to expand their business. Their business would be a great draw to tourist and a real asset to the area.

It is important that as a community we support local businesses and provide support to them. Corporate chains like Aspen come to town with large financial backing. A small local enterprise is comparatively operating at a disadvantage. Keeping our community unique by developing local businesses will ultimately be a plus. I don't believe the people of Haines want our town to look like every town America. That is the type of atmosphere that large Companies bring.

Please support Local entrepreneurs as much as possible.

Sincerely,

Lee and Margo Clayton
