Subject: Re: Motorized use

Hi All!

Speaking on behalf of myself and my family. To have a place close to town to recreate inlieu of driving miles, would be a great idea.

1. Being outside gives us benefits from a health perspective
2. Possible economic development (retail sales and repair shops...JOBS!!!)
3. Educational and Safety classes on use of motorized all terrain vehicles.
4. Community Recreational opportunities (safety, educational, tourism. avalanche classes) And the list could go on. Lets all try to work together and let Haines be a place for all of us to live and enjoy, not just a select few.
