Subject: ATV park

Dear Mayor-- I can't be at the meeting, but I do hope you will support an ATV park outside of the townsite service area. The former city is the most densely populated area in the borough and where we go to school, church, shop, get medical care and host visitors. An ATV park in its center would create noise and a nuisance not compatible with town life. I believe the borough land in the townsite is too valuable for other purposes as well. I also don't want to see the borough creating a facility in the townsite to attract an activity currently not done here-- it's asking for a conflict. I'm all for Recreation of all kinds, but large scale motorized recreation doesn't belong in town and we have lots of area outside town for it. (the comp plan identifies porcupine road, for example) thanks!

Heather

Subject: Motorized Area in Townsite - Public Comment for 9/23 BA Meeting

Dear Mayor Scott, Assembly Members and Manager Sosa,

This was a dumb idea when first proposed by Mr Campbell. It is still a dumb idea. The Planning Commission said so. Please respect the Planning Commission's decision and stop wasting our time and resources on minority special interest agenda items. Mr Campbell can create an ATV park on his property out the road.

Sincerely,
Thom Ely
