**Subject:** communication workshop

Dear Mayor Scott,

Firstly, I would like to ask you to forward this email on to members of the Borough Assembly. Secondly, I would like to commend the committee for taking the time to research possibilities for a communication seminar for borough assembly members. I am a believer in taking a non bandaid approach to problem solving and this seminar idea follows along this line. Working on the "how" often makes the "what" much easier to deal with.

Besides creating an opportunity for our borough leaders to increase their communication skills, I think just as important is the modelling that you will be doing for our community. I am hoping that by demonstrating your commitment to effective communication, you will be encouraging community members to do the same. Hopefully there will be a similar workshop for community members at large in the near future.

Thank you for all of your hard work, dedication and care.

Sincerely,

Liz Marantz-Falvey

Subject: Communication Proposal for Assembly

Hello Julie,

I am writing to express my approval regarding the concept of an initial work group for the assembly, led by Dan Henry, with the goal of increased and more productive communication within and outside Borough government.

From what I have recently learned, and from my participation in Community Matters and other local groups over the years, I feel it a timely opportunity to use a valuable, local and cost-effective resource to help facilitate better communication.

Please pass along this letter to the assembly members and to the mayor.

With much appreciation,

Carol Mitchell
