Subject: Heli-ski Changes

Dear Mayor Scott and Members of the Assembly,

I am writing to **support** adoption of proposed **Ordinance No. 13-07-339** making needed changes to the convening and composition of a heli-ski map committee and to heliski monitoring policy and sanctions for violations.

I am also writing to strongly **oppose** adoption of the proposed map changes contained in **Resolution No 13-07-472**. Additional heli-ski areas should not be approved by the Borough until the BLM Ring of Fire decisions for the Haines Area are announced and until the ADF&G goat studies are completed. Large areas were added last year and no new areas are warranted at this time. The ADF&G currently recommends *no map changes*.

Please keep the front ranges to the west free of heli-skiing.

Thank you for the opportunity to comment.

Sincerely,

Sherrie Goll
