**Subject:** Please reconsider Ordinance 13-12-357

Dear Assembly Members,

This letter is in response to the assembly's Ordinance 13-12-357 that will require the CVP to vacate the Human Resources Building by June 2014. While it's clear that the CVP needs to move out of that building and find a better, safer and more long-term solution, asking them to find an alternate location in the stipulated time period jeopardizes the very existence of this service.

For many families, CVP is the only option for a pre-school program in Haines. As a parent of two past CVP students I can attest to the value of what CVP does to ensure that the kids of our community are ready to attend school when they reach kindergarten age.

I would encourage the assembly to be an active partner with the CVP in finding a long term solution to their space needs and to change the terms of the Ordinance to allow the CVP more time to plan for, fundraise towards, and move to a new location.

Sincerely,  
James Alborough
