

**Land Use Permit Application Supplemental Questionnaire for:
Use of Uplands and Non Marine Waters**

To be completed to provide more detailed information about projects or activities requiring the use of state owned uplands and non marine waters. All site development details identified in this section must be represented graphically in the scaled drawings on Page 4 of the supplement.

Temporary Structures – 1) Describe all temporary improvements (including buildings, tent platforms, out-buildings, docks, floats, and floating facilities), including their dimensions and building materials. 2) Label improvements to be maintained on a year round basis as year round. **Note:** Seasonal improvements must be completely dismantled and removed or stored on or before the end of authorized terms of use.
All materials used will be in place for less than one week. The start gate, finish gates, and advertisement panels are made from either 2 inch pvc or 2 inch tubular Aluminum and are put into place by helicopter the day before or the day of the competition. You have copies of the appearance of these items in LAS 30011.

Distance structures including pit privies will be located from the ordinary highwater mark of the nearest freshwater body (lake, stream, river, etc), or the mean high water mark of a saltwater body: yes

Harvest of Non-Timber Related Forest Products – Please list the type and quantity of each non-timber related forest product (berries, ferns, willow, mushrooms, birch bark, etc.) to be harvested for commercial use:
NA

Contact the DNR Division of Forestry to obtain authorizations for the harvest of small trees.

Motorized Equipment - List mechanized/motorized equipment to be used, including type, size, purpose, and number of each.

Only mechanized equipment will be helicopters. These could include A-Star B-2 350 and Bell 210

For stream and water body crossings, note who you contacted in the DNR, Office of Habitat Management and Permitting:
Date: _____ Person: _____

Storage and Parking - If you plan to store items or park boats, vehicles and/or heavy equipment on the site, describe complete the following:

Describe and give dimensions of long term and short term parking and or storage areas. No parking on state lands

Is parking or storage planned to take place on filled tidelands. **Yes** | **No**

Does storage involve structures or materials floating in a waterbody? **Yes** | **No** If yes, describe. _____

Storage and Parking (continued)

Number of disassembled tent frames 2

Number of tent platforms 2

List and describe items that are large and difficult to transport. Include dimensions:

NA

Will barrel(s) or an equivalent type of storage container be used? **Yes** | **No** | If using something other than barrels for storage containers, describe the alternative container.

NA

Describe any measures you plan to take to minimize drips or spills from leaking vehicles or equipment.

We plan to have absorbent pads and shovels ready to remove any spills that might occur from running on site less than 5k generators.

Water / Wastewater

Water Supply – Describe the water supply and proposed use. Water will be hauled in to the site.

Wastewater – Describe the wastewater type and quantity and proposed method of wastewater disposal: (for the marine environment, also describe the proposed gray and black water systems or out fall pipeline.

Grey water will be disposed of on site which should not be of large volume as this is a temporary setup with limited volumes.
All black water will be disposed of in line with DEC standards.

Waste – Describe the types of waste that will be generated on-site, including solid waste, the source of the waste, and the method of waste disposal, i.e. pit privy, or self-contained system, or outfall line; indicate distance from the nearest waterbody.

Solid waste will be hauled out, no other wastes beside garbage associated with competition will be generated. This will be packaged and removed from the site.

Animal Use

Will there be any use of animals (horses, llamas, dogs, etc.)? Yes | No

Will there be commercial use of the animals (horseback rides, packing, dog sled rides, etc.)? Yes | No | If yes, please explain:

Dismantle, Removal, Restoration Plan – Provide a plan for dismantling and removing temporary structures. Include method and timeline for total site restoration:

All platforms, banner structures, and start and finish gates will be removed the day of or the day after competition. This should take less than 5 hours to perform. All garbage etc will be removed, and the area will be congruent with natural state.

No real restoration should be necessary as all activities occur on the snow.

SHORT TERM (PORTABLE) COMMERCIAL RECREATION CAMPS: Identify commercial recreation activity/activities for which short term (portable) camps **will be** established to accommodate employees and clients, and provide a general description of the location(s) (e.g. guide use area, game management sub-unit, river, stream, lake, etc.) where the recreational activity/activities and short term (portable) camp use will occur.

Big Game Guiding: (List up to 3 Guide Use Areas.) _____

Sportfishing (List river corridors, lakes, etc.) _____

Boating/Rafting/Kayaking: (List river corridors, lakes, etc.) _____

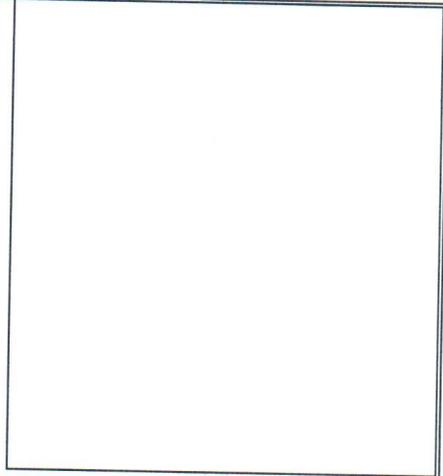

Other Recreation: (Type and general geographic description.) Ski competition in the Tahkin Ridge area near Mt. Chunekukleik

- Identify any State of Alaska Refuge, Sanctuary and/or Critical Habitat Area where short term (portable) camps will be used.
None

Will activities include “day use” of state land managed under the Haines State Forest Management Plan? Yes No
