Re; Jonathan Richardson Property, C-TBS0-3300
Lot 33, Tanani Bay Subdivision -Kennel Conditional Use Proposal

We would like to object to the approval of this conditional use kennel permit.

We are sure the Robinsons are very nice people. However, they haven't given the neighbors a chance to determine that quality. Many of the neighbors have had one or more unfavorable encounters with their dogs. Many complaints have been called in to the police and to HARK . Mr Robinson has been talked to by the residents and the police concerning controlling his dogs. Although we have not had an current incident, we have been threatened by three of his dogs on our property and two of his dogs charged us on a walk down Lutak Road. Our neighbors have had similar encounters. In addition they do not seem to have respect for property belong to others, allowing their dogs to run free down the beach or across properties.

We all love our dogs, but appreciate responsible dog owners.

Thanks for your time and consideration
