Hi Julie,

Please forward this to all Planning Commissioners:

Re: Heliport CUP

There seems to be some confusion about the Manager's recommendation for the heliport CUP. At the meeting we will hold a public hearing on the CUP application. We will then decide if we agree to accept the manager's recommendation that a decision on the CUP application be postponed. If we disagree, we will make a decision on the CUP application based on the information we have available to us. The CUP application is in the packet, as is a copy of the noise study. I would also encourage you to read the comments made by citizens about the noise study. The study is very technical, and some of those who wrote in summarized the data well. The comments are here:

We will also consider the testimony given to us at the meeting.

I apologize for not sending this letter sooner. I have been very busy, and I did not get my packet until Wednesday. I look forward to seeing you at the meeting.

Sincerely,

Rob
