Stephanie, Julie, and Assembly members,

There was an inaccuracy reported by KHNS regarding ADF&G's position on the proposed SEABA "photo contest." I am forwarding the following statement from Stephanie Sell of ADF&G for the sake of clarity.

Eric Holle

Eric,

That was an inaccurate statement by KHNS. The department supports ending the event earlier than requested by SEABA and the mayor proposed April 1. This would make the event period shorter (march 21-April 1). I hope this clarifies things.

Cheers
Stephanie

SEABA, goats, KHNS Hi Ryan and Stephanie,

On behalf of Lynn Canal Conservation, I would like to say I was encouraged to see a strong, definitive letter from the department in favor of keeping existing heli-ski boundaries, instead of allowing SEABA to open new areas of the map for

an entire month. I was then discouraged to hear the KHNS report that stated that Stephanie Sell indicated the department would support the proposed "photo competition" if it began April 1 instead of March 21. Does the delay of 10 or 11 days make that big a difference in stress factors on pregnant nannies?
