Subject: Haines Brewing Property Sale

Hello all

I am writing this to convey my strong support for the Haines Borough selling property on Main Street to Haines Brewing for the construction of a new brewery. I feel this is important for the following reasons:

- 1) Haines Brewing has shown themselves to be excellent brewers and responsible members of the Haines business community. As a homebrewer since the early 1980s and a certified beer judge, I can speak to the quality of their product and brewing techniques.
- 2) Land that is sitting unused could now generate tax revenues for the borough. There would still be property available for public use.
- 3) A new brewery is an asset to the community and would help immeasurably in the revitalization of the downtown area.
- 4) An upgraded brewery would help generate more economic activity for the town.

I feel that the borough should be supportive of small local business. This is one way that this support can be expressed, in a manner that benefits us all.

Thank you for your consideration.

Rob Miller
