---

Mike,

I would like to thank you for the work you and others have done regarding the off-premises sign issue. I appreciate now that it is more complicated to resolve properly than one would think at first glance.

Although I will be unable to attend to tonight's assembly meeting due to prior commitments I feel that it's important to add my voice.

I would ask the assembly to please resolve this issue in a way that allows business owners like myself to continue to use our signs. Without them most of us would see our small businesses crippled. I know I would. Visitors need signs to find us. They want signs to find us.

I would also like to ask the assembly to consider a waiver of the \$150 fee for a conditional use permit, if that is adopted, for current signs in use as I know of no current signs that pose any problems.

Again, thank you for all of your work,

Debi Knight Kennedy
