Subject: Lutak Dock Phase 3 Development

Dear Borough Manager, Clerk, and Assembly Members,

I am writing in support of Borough development of shipping facilities at Lutak Dock, BUT I OPPOSE Phase 3. While dock improvements and maintenance are long overdue, I do not support building an additional elevated platform that will allow it to service ships such as those needed to ship out ore from the Yukon or other industrial goods. I do not want ore trucks running through Haines or giant ships at our ports. To me this clashes with our rural quality of life and the reason so many choose to live in Haines. I do not want a terminal or any location that stores ore containers here, risking our health and safety and that of our watershed and salmon habitat when they are moved around. I do not want the Borough making plans with Yukon Mining before there is ample public discussion and input ahead of time and throughout the dock renovation/construction process.

Please add these comments to the public record for tonight's assembly meeting.

Thank you.

Sincerely,

Molly Sturdevant
