Assembly members and Mayor Olerud,

I recently wrote a letter saying that I was concerned that the dock ore transfer decision was being pushed through our local government without adequate community input. Now I am more alarmed, as I see it as a very real possibility to happen very fast. This is one of the scariest changes I see happening in our community.

Probably if you do not live along the highway or the truck route into town it may not seem like a big deal but PLEASE represent those of us who will feel the impact the most.

When I visit down south one of the most noticeable reason I am happy to get home is the lack of traffic noise. I am guessing all of you can relate to that. We have choices living here, please utilize these choices for quality of life.

Once this transport starts there will most likley be increases through the years. Just like other places when it started it didnt seem like "too much traffic" and "we will all get used to it." I dont want to live in one of the places. Please do not vote for this phase 3 part of the plan.

Mardell Gunn and Diz Kistler
