Alekka: Please forward to Mayor, Manager, and Assembly Members:

With an issue as important as the future of our community and the design of the Lutak dock improvements, I ask the Mayor, Manager, and Borough Assembly to vote no on Resolution 22-09-996.

It is clear that this issue is of extreme importance to the community as a whole and our future quality of life.

I am opposed to an ore dock. I am opposed to this process not having been transparent to the community, and being pushed as a behind-the-scenes agenda.

As with any issues in our community involving haul roads, industrial scale logging and mining, and construction of an ore terminal, community input is essential prior to moving forward.

I am strongly opposed to Resolution 22-09-996.

Schedule Town Hall meetings on issues this important. Don't push through as a Borough Assembly Resolution where the public has had little notice beyond the bare minimum legal requirement.

Leadership means a serious commitment to community input, not railroading an agenda with potential serious negative quality of life to this special place we share.

We need a Planning Commission and a Ports and Harbor Committee that believe in and encourage community input and that represent a diversity of interests, not a single minded agenda.

We do not have that. I ask the Mayor, Manager, and Borough Assembly to do better.

Regards, Kathleen Menke
