Dear Mayor Assembly

The proposal to stop resource extraction seems more like a effort to stop economic activity.South East Road Builders has 40 years experience moving mountains and building roads,surely they have the experience to extract gravel without causing a landslide or environmental harm.

During this time of war we cannot look at the Lutak Dock as something to just serve Haines needs. We need to build the Dock like it was so large Vessels can off load important infrastructure that may be needed for the entire North John Carlson Sent from my iPhone
