Hello, please post this under "supporting documents". Thanks!

To the members of the Haines Borough Assembly,

I am concerned about the future of this federally-funded megaproject that has the potential to put local taxpayers on the hook for maintenance ad infinitum. That's me. I don't want to pay for corporate welfare. Let's do the thing we've been saying we need to do, which is build the necessary infrastructure to support the town's uses.

The first step in doing that is stopping the work order for the current design, which is a federally-funded megaproject that has the potential to put local taxpayers on the hook for maintenance ad infinitum.

Thanks,
Joe Aultman-Moore
