RE: Resource Extraction Permit

Members of the Haines Borough Assembly,

I write to you today in support of Southeast Roadbuilders (Colaska) Resource extraction permit for their Lutak properties. As a former 14 year employee of Secon and Quality Asphalt Products (both Colaska Companies), I can attest to the absolute professionalism within Colaska. Over the last 6 years we have watched Secon/Southeast Roadbuilders rebuild 20 miles of the Haines Highway. They have proven that they are capable of safely working along Salmon Habitat and within an Eagle Preserve.

Their purchase of the Lutak properties was an investment into this community. Roadbuilders employs many members of this community. It is important to support local business and encourage commerce to keep a healthy and diverse population. The Lutak corridor has served as a good location for Heavy Industry for over 120 years.
