Subject: Lutak Dock support

CAUTION: This email originated from outside of the Haines Borough. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

I am writing to support the current design and construction of the Lutak Dock by qualified engineers and geo tech people.

Many hours of deliberation and many eyes have checked, double checked and triple checked the design. Turnagain was presenting to the Ports and Harbors, Planning Commission and the Assembly 3 times. The public attended and asked questions and questions were answered. The dock has had failings already, please do not postpone any longer.
