I request to be scheduled on the Borough Assembly meeting agenda dated the 13th day of February, or as soon thereafter as possible.

Purpose of Request: We would like the Assembly to consider pursuing an alternative design for Lutak Dock.

Estimated Time Required (if a presentation) 15 minutes or less

Action you wish the Assembly to take: \_\_\_\_\_

We would like the assembly to pursue an alternative design for Lutak Dock.

We have a concept to propose to the Assembly that we believe would be faster, cheaper, have less maintenance cost over time, and be more agreeable to more community members while meeting our community's needs. This is a complex, controversial project and alternative designs are recommended at the EA stage of review.

**Note:** The deadline for agenda topics is as noted on the most current assembly-adopted Agenda Preparation Calendar, available from the Clerk's Office or at [www.hainesalaska.gov/borough-assembly](http://www.hainesalaska.gov/borough-assembly). Your request will either be placed on the next assembly agenda under "Other New Business: Requests" or will be referred by the Mayor to a committee for further development. Please be aware that we may ask for additional supportive and/or background information in order to assist the assembly in making an informed decision. The clerk will provide copies for them. Whenever possible, issues will be reviewed by the manager. Should the issue be resolved ahead of an assembly meeting, the person will have the option to decline to have it presented to the assembly.
