Please pass on to the Assembly.

Dear Assembly,

Please adopt the Board of Equalization (BOE) code revision submitted by the Ad Hoc committee.

This code revision changing BOE formation was developed through countless hours of volunteer meetings, discussions and research. The eclectic group that has come together to develop this code revision includes professional planners with years of experience in Haines and in places other than Haines, citizens that have studied the problem with the BOE process and researched code, and professional people with lifetimes of experience in private and public operations.

The Ad Hoc Committee has included countless methods of community outreach to every sector of our community in their process. Their proposals are not formed in a vacuum.

It is nice that an assembly member would take the time to present their personal beliefs on the BOE revision, but it should be dismissed. This alternate code has not been vetted with the hours of discussion and multiple opportunities for community input that the Ad Hoc proposed change development included.

Please accept the Citizens' efforts and choices on how best to proceed with the BOE; it is the Citizens lives that are most effected by this.

Thank you,

George Campbell
