I am writing to you to voice my support for the plan that is already in place. One can never build anything too big. If you build a garage, you will wish you had built it bigger within the first year. Do not cave in to the voices of another not for profit organization. LCC is seeking to stop this project at the expense of the Borough tax payers. The bulk of their members do not live within this Borough nor do they have to work for a living. My wife feels the exact same way, so this letter should count as two votes for "build it big". Or she can write to you also and take up more of your time. Also, an ore dock would need to be 4 times larger to store enough ore to fill an ore ship. LCC is trying to instill fear into people through lies and scare tactics. Shame on them. But what do you expect? That is their norm.
