Dear Assembly,

This letter is in support of the current Lutak Dock design concept. Please do not further risk our funding to fix a dock that has been failing for years. When we thought it was never going to happen, we were gifted with a tremendous amount of funding to see it through.

Our businesses and community need this dock to happen and have voted over and over, this is the approved design. So many folks I know are struggling to survive here, the costs to live here are so high. The further delay of this long awaited project will only add to the suffering of the community. The time to make the proposed changes to our project have long passed. Please do not stall any longer.

Thank you
John Wooton
