I as a resident home owner, support the plans for repairs to Lutak Dock. There is so many liabilities, not doing the rebuild, our community can not afford to put this off, any longer. There are unsafe areas, covered by steel plates, these to could fail. The weigh alone using the critical areas, for storage, or driving over them, are dangerous. It's beyond critical, for repairs. Our groceries can not be delivered, our fuel can not be delivered, and life of the transport persons are all in need of protection. Please consider my letter, I was born in Southeast Alaska, know how it feels to get groceries twice a year, by steamship, it's a make do era, this could be us! The ferries are not dependable, we are a community that can't go backwards, repair the dock. I lived in very remote villages, know the needs of them, let's not get to the point of failure of the dock, and have to call the Alaska National Guard, to bring us food, or fuel. Thank you, for supporting the community, considering my concerns. Sincerely, Linda L. Geise
