Alekka - Please transmit the following to the Assembly for their meeting tomorrow.

My husband and I are 100 percent in favor of the rehabilitation of the Lutak Dock as laid out in the CURRENT design. We understand that the Assembly is considering cancelling this project. We have also been told that the Borough is in danger of having to pay back monies already allocated for this project and possibly cancelling contracts that have already been approved. How much will THAT cost us? The financial consequences of this proposed action could be in the several millions of dollars for the Haines Borough.

The importance of this facility to the citizens of Haines cannot be overstated.

This dock has been patched and largely ignored over the years by previous administrations and we hope that the Borough will finally make a commitment to bring this extremely valuable resource back to a safe, working condition for generations to come.

Thank you,

Susan and Fred Johnston
