Hello,

I have asked the mayor to read the following statement at the beginning of the meeting tonight because I am traveling and cannot attend.

I am aware of HBC 2.06.047 and that Eben Sargent, a planning commissioner, is my partner. We discussed this when we heard this series of permit issues the first time around several months ago. It was also stated in the Chilkat Valley News. HBC 2.06.047 applies to partiality in quasi-judicial decisions. I do not have partiality because my partner is on the planning commission. The body, and the parties to the issue, were also aware of this prior relationship. I did not feel it was necessary to disclose this information again, as the clerk had mentioned my relationship prior to the meeting with me and so I assumed it had been a topic of discussion to all relevant parties. Thank you.

Thanks!  
Natalie
