Dear Mayor Hill, Manager Seward and Assembly members,

Regarding Resolution 16-06-681

The date to form a Heliski Map committee has passed and therefore the resolution conflicts with borough code which requires the committee to be established by June 10 and recommendations given to the manager by July 15. Clearly the code needs to be revised so that specified dates for committee appointments can work with the May 31 deadline for suggested changes to the Borough's approved Heliski Map.

We suggest that resolution 16-06-681 be tabled until needed changes to code are put in place. To proceed with the resolution before code is revised would be inappropriate and quite possibly illegal. To subject the Borough to potential lawsuits would be irresponsible.

Sincerely,  
Eric Holle, President  
Lynn Canal Conservation, Inc.
