**Re: Tidewater Transportation Canada, Inc. (TTCI), Oil Discharge Prevention and Contingency Plan (ODPCP), ADEC Plan No. 23-CP-1165; Plan Renewal – Final Approved Document and Distribution**

Dear Ms. Mishmash (and Plan Review Participants):

TTCI pleased to provide you with your copy of our ODPCP five-year renewal document, recently approved by your agency, the Alaska Department of Environmental Conservation (ADEC). The enclosed document has been notably improved over the course of the renewal application process. We appreciate your patience and understanding regarding the word processing programs' limitations throughout the review process.

For you and the Plan Review Participants, the previous version of the ODPCP file was issued in portable document format (PDF). Please delete, file or archive the document you were sent previously and replace it with the downloaded file. The downloaded file was delivered to ADEC via your file transfer protocol (FTP) service, Zendto.

It has also been distributed to the Plan Review Participants via a separate FTP service link via email. It will be available on the ADEC's website at: <https://dec.alaska.gov/Applications/SPAR/PublicMVC/IPP/ApprovedCPlans/> at a later date. If anyone requires a printed copy, please contact Kirsten Ballard of ARCTOS Alaska, a Division of NORTECH, Inc., at (907) 245-4230 or [Kirsten.ballard@nortechengr.com](mailto:Kirsten.ballard@nortechengr.com). Ms. Ballard coordinated the plan renewal process for us.

If you have any questions, please contact me at (604) 341-8458 or [ailsa.vandenbrink@islandtug.com](mailto:ailsa.vandenbrink@islandtug.com). I anticipate my email address may change in the near future and I will update you via email when that occurs.

Sincerely,

A handwritten signature in cursive script that reads 'Ailsa VandenBrink'.

Ailsa VandenBrink  
Manager – QHSSE / DPA

Enclosure: Approved Final Version of Approved TTCI ODPCP
