Summary of meeting:

Green space between roadway and Lookout Park.

Green space instead of sidewalk on the seaward side  
(Rationale is that people are going to be there, but by not having a sidewalk, it does not encourage people to walk out there)

Keeping the natural vegetation

Stairs down to walkway from the sidewalk

Possible funding source is the Cruise Ship Head Tax. But only when that account has recovered on the State level.

Possibility of a dedication of funds from the CIP, 2-3 years before we will be in position to start aesthetics.

Committee is dedicated to the commitment of aesthetics for the

Harbor expansion.
