

Water front Aesthetics Committee

August 10,2015/ 6:30PM

Chair: Mayor Jan Hill

Co Chair: Diana Lapham, Committee: Beryl Sheldon, Doug Olerud, Sean Gaffney, Don Turner, Donny Turner,Debra Schnabel

Ex Offico: Manager Dave Sosa

Assembly: Mike Case, Ron Jackson

Staff: Brian Lemke., Facilities Director, Sean Bell, Harbormaster

Bullet Points: Projected parking lot will be the same elevation as the Memorial.

Borough owns up to the 2nd power pole, as you are looking towards the PC Dock from the orange markers that show the length of the proposed parking lot.

Per Fish and Game the parking lot is at minimum size for the size of our harbor...(floats)

In the green belt area off of the parking lot, we can keep the evergreens and grub out the underbrush as well as the Alders; D-1 can be laid down for a walking trail and topsoil can be spread to plant grass. Giving that area a more park like setting.

Public works maintain the grass and general maintenance

General Ideas, meeting took place at the harbor area so that we could have a clear picture of the area that we are tasked with.

- Surface of the parking lot, they make "Planting Blocks" that can be inserted into the surface paving of the parking lot
- Underground Electricity
- A park inside of the parking lot, using the evergreens that would be cut down for the project.
- Trees for shade inside of parking lot

- Trees and walkways around the perimeter of the parking lot
- Using natural trees and vegetation
- Tie in with Tlinget Park
- Save the Evergreen just off of the Memorial to incorporate into the walking trail.
- Making it very natural
- Stairs down to trail
- Picket fence around Look out Park to separate the general public from wandering into the parking lot and into harms way.

Meeting adjourned at 7:30PM
