

Thriving Haines Borough 2035 Comprehensive Plan Revision

Together, Planning Our Future

What is a Comprehensive Plan?

A combination of **long-term vision, goals, and practical strategies** that will:

Guide decisions about land use, transportation, utilities, economic development, housing, and more.

Provide a roadmap for implementation, with clear priorities and actions.

We are updating the 2012 Comprehensive Plan to recognize and celebrate what we have accomplished, to address new challenges and opportunities for our community, and to coordinate efforts throughout the Borough.
