INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Assembly of Haines Borough Haines, Alaska

Report on the Audit of the Financial Statements

Opinion

I have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Haines Borough (the Borough), as of and for the years ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements as listed in the table of contents.

In my opinion, based on my audit and the report of other auditors, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Borough, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

I did not audit the financial statements of the Haines Borough School District, which represents 4.1% of total assets in the Statement of Net Position and 29% of total revenues in the Statement of Activities. Those financial statements were audited by other auditors whose report thereon has been furnished to me, and my opinion, insofar as it relates to the amounts included for the Haines Borough School District, is based on the report of the other auditors.

Basis for Opinion

I conducted my audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (*GAS*), issued by the Comptroller General of the United States. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am required to be independent of the Borough and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements relating to my audits. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Responsibilities of Management for the Financial Statements

The Borough's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Borough's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *GAS* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, I:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Borough's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Borough's ability to continue as a going concern for a reasonable period of time.

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that I identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information, and pension and other post-employment schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my

inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. My opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated January 10, 2022 on my consideration of the Borough's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Borough's internal control over financial reporting and compliance.

RECONCILIATION OF THE STATEMENTS OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2022

Net change in fund balances - total governmental funds		\$ (885,169)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the costs of those assets are capitalized and are allocated over their estimated useful lives and reported as depreciation expense:		
Capital outlays Depreciation expense	1,461,330 (1,538,696)	(77,366)
Other transactions involving sales of land net of cash collected. Cash collected is presented as current year income in the fund financial statements.		(5,000)
Changes in deferred revenue in the Statement of Activities that do not provide current financial resources are not reported as revenues in the governmental funds. This amount is the change in the net amount recognized from year to year.		94,685
The repayment of the principal of long-term debt consumes the current financial resources of governmental funds; however, this has no effect on net position since payments are applied to debt recorded on the Statement of Net Position rather than as an expense item. This amount reflects principal payments made during the fiscal year.		1,146,149
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds: Pension and other post-employment (expense) benefit, net of pension and other post	t-	004 404
employment contributions reflected in the governmental funds Change in compensated absences		824,484 7,619
Change in Net Position of Governmental Activities		\$ 1,105,402

NOTES TO FINANCIAL STATEMENTS

Year Ended June 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Haines Borough ("the Borough") was created in October 2002, when the public voted to combine the Haines Borough with the City of Haines. The Borough is incorporated under the laws of the State of Alaska as a Home Rule borough. The Borough operates under a Manager-Assembly form of government and provides the following services: public safety (police, fire, and medical services), streets and sidewalks, water and sewer, health, culture-recreation and economic development, port authority, public improvements, planning and zoning, and general administrative services.

Discretely Presented Component Units

The accompanying financial statements present the Borough and its component units. The Borough Assembly approves the total annual budgets of these entities and annually provides significant operating subsidies to them. In addition, the Borough levies taxes on behalf of the Haines Borough School District ("the School District"). Accordingly, the Borough is considered to be financially accountable for these entities. However, each entity has a separate governing board (the District's board is elected by the public) and the component units are therefore discretely presented in the financial statements. The component units are:

- Haines Borough School District which provides elementary and secondary education within the Borough's jurisdiction.
- Klehini Valley Volunteer Fire Department which provides fire protection in the Klehini Valley.

Information about major component units is included in the Component Unit Combining Statement of Net Position (Deficit) (page 11) and the Component Unit Combining Statement of Activities (page 12).

Complete financial statements for the School District may be obtained from the School District's administrative offices:

Haines Borough School District P.O. Box 1289 Haines, AK 99827

The other component unit does not have separately audited financial statements.

The Haines Borough Assembly adopted Ordinance 21-07-590S on August 24, 2021, which substantially reduced the Borough's oversight and control of the Sheldon Museum and Cultural Center (Museum). As a result of these changes, management determined that the Museum no longer met the criteria for treatment as a component unit beginning with the year ended June 30, 2022.

Government-Wide and Fund Financial Statements

The Statement of Net Position (Deficit) and the Statement of Activities display information about the primary government (the Borough) and its component units. These statements include the financial activities of the overall government. For the most part, the effect of interfund activity has been removed from these statements. These statements distinguish between the governmental and business-type activities of the Borough. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

NOTES TO FINANCIAL STATEMENTS

The Statement of Activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Borough, and for each function of the Borough's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Borough reports the following major governmental funds:

General Fund – The General Fund is the Borough's primary operating fund. It is used to account for all financial resources of the general government, except those required to be accounted for in another fund.

Permanent Fund – Accounts for assets held in a trustee capacity. The fund represents the cumulative net proceeds from the sale of municipal lands less construction of public improvements within local improvement districts. The principal balance of the fund cannot be spent and must be held in trust for the benefit of future residents of the Borough. Only income of the fund may be spent. The Assembly shall provide for the protection of the fund principal from the effects of inflation and may appropriate any remaining income for Borough expenses.

CARES Act Special Revenue Fund – Accounts for revenues and expenditures related to the Borough's CARES Act, Coronavirus Relief Fund (CRF) pass-through grant from the State of Alaska.

New School Debt Service – Accounts for property tax revenue and State of Alaska grants used to make payments on the bonds that were issued to construct the new school and related projects.

Capital Project Funds – Accounts for amounts spent on capital improvement and replacement projects, primarily funded by government grants and sales taxes that benefit the entire Borough area.

Passenger Vessel Tax – Accounts for docks and harbors improvements, funded by passenger vessel taxes. The Borough did not adopt a budget for this fund for the fiscal year.

The Borough reports the following major proprietary funds:

Water Fund – Accounts for activities including operating the water storage and distribution systems.

Sewer Fund – Accounts for activities including operating the sewage treatment plant, sewage pumping stations, and collection systems.

Small Boat Harbor Fund – Accounts for activities including operating the small boat harbor.

Lutak Dock Fund – Accounts for activities including operating Lutak Dock.

Port Chilkoot Dock Fund – Accounts for activities including operating Port Chilkoot Dock.

Garbage service for the Borough is not operated by the Borough government, but is provided by a private business.

NOTES TO FINANCIAL STATEMENTS

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Basis of accounting refers to when financial activities are recognized in the accounts and reported in the financial statements.

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, respectively. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments (if any), are recorded only when payment is due.

Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Other revenue items are considered to be measurable and available only when cash is received by the government. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

Proprietary (or enterprise) funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Borough's enterprise funds are charges to customers for sales and services. The water and sewer funds also recognize as operating revenue fees intended to recover the cost of connecting new customers to the systems.

Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Property Taxes

Property taxes are levied on July 1 and are payable on November 1. Property taxes attach as an enforceable lien on property approximately one year from the due date. The Borough bills and collects taxes for its own and school purposes. Borough property tax revenues are recognized when they become measurable and available which is generally when levied. Delinquent property taxes are not considered currently available, so they are reported as deferred inflow of resources in the fund financial statements.

Land Sales

The Borough also occasionally sells land using long-term receivable contracts. In the fund financial statements, the amounts due on the receivable contracts are not available to finance current period expenditures; therefore, they are reported as deferred inflow of resources in the fund financial statements. The amounts due on the receivable contracts are recognized as revenue when the funds are

NOTES TO FINANCIAL STATEMENTS

available to meet current period expenditures. These contracts are revenue for the government-wide Statement of Activities when the sale occurs.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from the estimated amounts.

Assets, Liabilities, Deferred Inflows and Outflows of Resources, Net Position and Fund Balance

Deposits and Investments

All cash deposits are in a single financial institution and are carried at cost. The Borough considers all investments in money market funds and highly-liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

The Borough pools most of its cash resources of its various funds to facilitate the management of cash. The majority of the cash balances are recorded in the general fund with amounts allocated to the appropriate funds.

Securities are stated at fair market values determined by established trading market prices and any gains and losses (realized and unrealized) are included in the Borough's financial activities. Security transactions are recorded on the trade date.

Receivables and Leases Receivable

All receivables are reported at gross value and, if appropriate, are reduced by the estimated portion that is expected to be uncollectible. Leases receivable are recorded at their net present value of future lease noncancellable lease payments, including all reasonably certain extensions, discounted at the Borough's estimated lending rate, which approximates its borrowing rate. Leases receivable are offset by a corresponding deferred inflow of resources until the related lease inflows are available.

Due to and Due from Other Funds

Interfund receivables and payables arising from interfund transactions are recorded by all funds affected in the period in which the transactions are executed and are current obligations. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Inventory

Inventory consists of fuel, parts, supplies and museum merchandise, and is stated at the lower of cost (first-in, first-out basis) or market. Reported governmental fund inventories are equally offset by a portion of fund balance classified as nonspendable in the fund financial statements, which indicates that they do not constitute "available and spendable resources" even though they are a component of net capital assets.

Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Restricted Assets

Certain cash, investments, and receivables are classified as restricted assets in the accompanying financial statements because they are permanently held for the benefit of future residents of the Borough. In addition, assets which are restricted for specific uses by bond covenants, grant provisions, or other requirements are classified as restricted assets.

NOTES TO FINANCIAL STATEMENTS

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation, and capital assets received in a service concession arrangement are recorded at acquisition value as of the date of receipt.

The cost of normal maintenance and repairs that do not add to the value of the asset or do not materially extend asset lives are not capitalized.

Property, plant, and equipment are depreciated using the straight-line method over the following estimated useful lives:

	Estimated Useful Life
Building structures and other improvements	10 – 40 years
Machinery and equipment	5 – 15 years
Roads, bridges and harbor infrastructure	15 – 50 years

All significant capital assets including infrastructure assets are capitalized and reported by the Borough.

Compensated Absences

It is the Borough's policy to permit employees to accumulate earned but unused personal leave benefits. All personal leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Unearned Revenue

Amounts received from grants and other sources, but not yet spent for their restricted purpose, are shown on the balance sheet as unearned revenue on both the government-wide and fund financial statements.

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund balance sheets.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Alaska Public Employees' Retirement System (PERS) and the Teachers' Retirement System (TRS) and additions to/deductions from PERS's and TRS's fiduciary net position have been determined on the same basis as PERS and TRS, assuming the State's pension support under AS 39.35.280 is a "Special Funding Situation" as defined by GASB 68. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB)

For purposes of measuring the OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Alaska

NOTES TO FINANCIAL STATEMENTS

Public Employees' Retirement System (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as PERS, and assuming the State's OPEB support under AS 39.35.280 is a "Special Funding Situation" as defined by GASB 75. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Financial Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Financial Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets consist of capital assets, net of accumulated depreciation, and related debt. Net positions are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Borough Assembly or through external restriction imposed by creditors, grantors or laws or regulations of other governments.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources as budgeted by the Borough Assembly and then unrestricted resources as they are needed.

Fund Balance

Generally, fund balance represents the difference between the current assets, current liabilities and deferred inflows and outflows of resources. The Borough classifies its fund balances in accordance with GASB Statement No. 54 nonspendable, restricted, committed, assigned, or unassigned fund balance categories. See Note 7 for further information on the Borough's fund balance classifications.

In governmental funds, the Borough's policy regarding when an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) amounts are available is to consider restricted amounts to be reduced first. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, then committed amounts would be reduced first, followed by assigned and then unassigned amounts.

The Borough has not formally adopted a policy with respect to the minimum fund balance amount.

Reclassifications

Certain prior year financial statement balances have been reclassified to conform to the current year presentation.

Date of Subsequent Review

The Borough has evaluated subsequent events through the date of the Independent Auditor's Report, which is commensurate with the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING

The appropriated budget is prepared by fund, function, and department using the modified accrual basis of accounting. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level. The Assembly made several supplemental budgetary appropriations during the year. The significant supplemental budgetary appropriations made were related to intergovernmental revenue, wage and related expenses, and other operating expenses.

NOTE 3 – CASH AND CASH EQUIVALENTS

The Borough follows the practice of pooling cash equivalents of its various funds. The financial activity of the pooled cash and cash equivalents is accounted for in the General Fund. In some instances, funds may overdraft their available cash balance in the general fund. Specific fund overdrafts are treated as short-term loans and are included on the balance sheets as liabilities in "due to other funds." Funds' interest in pooled cash and cash equivalents is included on the balance sheets as assets in "due from other funds". Interest income from pooled cash equivalents is allocated ratably over the various funds.

At June 30, 2022, the carrying amounts of the Borough's cash and cash equivalents balances were \$2,937,680 while the bank and other institution balances were \$3,112,323. These balances are categorized as follows:

	Bank Balance		
Amount insured by the FDIC (up to \$250,000) or			
collateralized with securities held by the bank			
or other institutions	\$	3,112,323	
Uncollateralized/uninsured		-	
	\$	3,112,323	

Cash and cash equivalents include amounts placed with the Alaska Municipal League Investment Pool (AMLIP) totaling \$295,251 at June 30, 2022. AMLIP is considered to be an external investment pool. Regulatory oversight of AMLIP is established by Alaska State Statute 37.23, which sets forth the requirements regarding authorized investments and reporting. The Borough's share of its deposit with AMLIP is recorded at net asset value which is determined by the amortized cost of AMLIP's underlying portfolio, which approximates fair value.

Cash and cash equivalents for component units other than the School District are fully insured by the FDIC.

The following is the reconciliation of various components of cash to amounts presented in the statement of net position:

	Carrying Amount
	 Amount
Reconciliation to statement of net position-	
Cash and cash equivalents	\$ 2,824,473
Restricted assets:	
Cash and cash equivalents	22,128
Revenue bond debt service reserve instruments	91,079
	\$ 2,937,680

NOTES TO FINANCIAL STATEMENTS

Custodial Credit Risk – Cash and Cash Equivalents

Custodial credit risk for cash and cash equivalents is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. As of June 30, 2022, the Borough maintains a mater repurchase agreement with a depository financial institution, First National Bank of Alaska (FNBA), which is fully collateralized. Balances at other financial institutions are subject to coverage provided by the Federal Deposit Insurance Corporation (FDIC). Money market mutual funds and AMLIP seek to preserve a \$1 net asset value per share, collateralized by underlying securities.

NOTE 4 - INVESTMENTS

Credit risk – Statutes authorize the Borough to invest in obligations insured or guaranteed by the United States government or its agencies, as well as obligations of the State of Alaska or municipalities of the state, certificates of deposit, and corporate obligations of prime or equivalent quality as recognized by a nationally recognized rating organization. In addition, the Permanent Fund may be partially invested in equities.

Custodial credit risk – The Borough does not have a formal investment policy related to custodial credit risk, but management does not believe there is significant risk with respect to uncollateralized funds based on the nature and size of the custodian.

Interest rate risk – The Borough does not have a formal investment policy that limits maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Fair market value of securities is determined by established trading market prices.

Investments made by the Borough are summarized below:

	Invest	Investment Maturities (in years)								
	Less than 1	1-5	6-10	Total						
Investments held by agent in the Borough's name										
Certificates of deposit	\$ 729,656	\$ 972,650	\$-	\$ 1,702,306						
U.S. Government instruments	558,558	7,862,978	787,228	9,208,764						
Corporate debt	495,782	3,217,227	991,930	4,704,939						
Municipal securities	502,900	178,710	-	681,610						
Total debt securities	\$ 2,286,896	\$ 12,231,565	\$ 1,779,158	16,297,619						
Equity funds				2,347,056						
Total Investments made by the Bor	ough			\$ 18,644,675						
Reconciliation to statement of net	position:									
Investments				10,283,055						
Restricted investments				8,361,620						
Total Investments made by the Bor	ough			\$ 18,644,675						

This section left intentionally blank.

NOTES TO FINANCIAL STATEMENTS

The credit quality ratings of the Borough's corporate debt, municipal securities, and U.S. Government instrument investments as of June 30, 2022, as described by nationally recognized statistical rating organizations, are shown below:

	S&P Rating	Inv	vestment Fair	Percentage of Total
Corporate debt	A+	\$	242,678	1.5%
Corporate debt	А		1,370,288	8.4%
Corporate debt	A-		1,490,374	9.1%
Corporate debt	BBB+		918,594	5.6%
Corporate debt	BBB		638,227	3.9%
Corporate debt	BBB-		44,779	0.3%
Municipal securities	AA-		681,610	4.2%
U.S. Government instruments	AA+		9,208,763	56.5%
Certificates of Deposit	Not Rated		1,702,306	10.4%
		\$	16,297,619	100.0%

Fair Value Measurements

The Borough categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 input is quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 is used when there are no observable inputs.

At June 30, 2022, the Borough had the following recurring fair value measurements:

Investments by Fair Value	Fair	Fair Val	ue Measuremen	ts Using
Level	Value	Level 1	Level 2	Level 3
Investments in Exchange				
Traded Funds	\$ 2,347,056	\$ 2,347,056	\$ -	\$-
Certificates of Deposit	1,702,306	-	1,702,306	-
U.S. Government Instruments	9,208,764	-	9,208,764	-
Corporate Debt	4,704,939	-	4,704,939	-
Municipal Securities	681,610	-	681,610	-
Total Investment By Fair				
Value Level	\$ 18,644,675	\$ 2,347,056	\$ 16,297,619	\$-

Securities classified in Level 1 are valued using prices quoted in active markets for those securities. Securities classified in Level 2 are valued using a market-based model which considers yield, price of comparable securities, coupon rate, maturity, credit-quality, and dealer-provided prices. The Borough does not have any securities classified in Level 3.

This section left intentionally blank.

NOTES TO FINANCIAL STATEMENTS

NOTE 5 - RECEIVABLES, DEFERRED INFLOW OF RESOURCES, AND UNEARNED REVENUE

Receivables at June 30, 2022,	for the individual	major and	aggregate	nonmajor funds	were as follows:

		-				-				•		-

Lutak dock fund		-		-		278,828		-		47,974		-		-	326,802
Port Chilkoot dock fund		-		-		-		-		69,764		-		-	69,764
Total	\$	717,992	\$	42,564	\$	908,509	\$	109,408	\$	218,695	\$	1,617,041	\$	781,068	\$3,765,596
Reconciliation to statement	of	net nosit	ion												
Current receivables	. 01	net posit	1011.												\$2,660,981
Current portion of leases	re	ceivable													22,684
Leases receivable, net of			on												885,825
Restricted receivables															44,134
Noncurrent receivables,	net	t of currer	nt pa	ortion											151,972
															\$3,765,596

All receivables other than land sales, leases receivable (See Note 6) and revolving loans are expected to be collected within one year. Land sales are to be collected over various terms with interest charged at 10%. The current portion of these contracts is approximately \$5,000. Receivables also include \$152,474 due from Juneau Economic Development Council (JEDC) pursuant to an agreement for JEDC to establish a revolving loan fund. All loans made by the JEDC under the agreement have been repaid to JEDC.

Governmental funds report deferred inflow of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also recognize unearned revenue, a liability, in connection with resources that have been received, but not yet earned.

At June 30 2022, the various components of deferred inflow of resources and unearned revenue reported in the governmental funds balance sheets and the statements of net position were as follows:

	Ur	navailable	Unearned	Total
Property taxes receivable	\$	160,826	\$-	\$ 160,826
Payments in lieu of taxes, Secure Rural Schools and other		-	748,081	748,081

The Borough owns the land and buildings used by the School District and records the land, buildings, and certain equipment as part of governmental activity capital assets. At June 30, 2022, the cost and accumulated depreciation associated with these assets was \$23,980,561 and \$11,735,042, respectively.

NOTES TO FINANCIAL STATEMENTS

NOTE 8 - FUND BALANCES – GOVERNMENTAL FUNDS

As of June 30, 2022, fund balances of the governmental funds are classified as follows:

<u>Nonspendable Fund Balance</u> – Nonspendable fund balance is that portion of fund equity that cannot be spent either because it is in a nonspendable form or because it is legally or contractually required to be maintained intact.

<u>Restricted Fund Balance</u> – Restricted fund balance is that portion of fund equity that has constraints placed upon the use of the resources either by an external party or imposed by law.

<u>Committed Fund Balance</u> – Committed fund balance is that portion of fund equity that can only be used for specific purposes determined by a formal action by the Borough Assembly. Formal action by the Assembly is required to establish, modify or rescind a fund balance commitment.

<u>Assigned Fund Balance</u> – Assigned fund balance is that portion of fund equity that is constrained by the government's intent to be used for specific purposes, but is neither restricted nor committed. Intent can be expressed by the governing body itself or by the Borough Manager or his designee to whom the governing body has delegated the authority to assign amounts to be used for specific purposes.

<u>Unassigned Fund Balance</u> – Unassigned fund balance is that portion of fund balances not included in other spendable classifications.

NOTES TO FINANCIAL STATEMENTS

NOTE 9 - LONG-TERM OBLIGATIONS

The Borough's long-term obligations include general obligation debt and revenue bonds, pension and OPEB liabilities and compensated absences. General obligation bonds and loans are direct obligations of the Borough and the Borough has pledged its full faith and credit to their repayment. Revenue bonds are payable from the sewer user fees. Compensated absences included in governmental activities are generally liquidated by the general fund.

Long-term obligation activity for the year ended June 30, 2022, was as follows:

Loan from the State of Alaska Department of Environmental Conservation, due in annual installments of \$14,439 including interest at 1.5%, through 2034	157,495
\$1,210,000 2013 sewer revenue bonds, due in semi-annual installments of \$61,849 to \$81,856, including interest at 2%, through 2033 (not including umamortized premium of \$53,459 at June 3, 2022)	\$ 805,000

NOTES TO FINANCIAL STATEMENTS

In conjunction with the issuance of the above school construction bonds, the State of Alaska Department of Education and Early Development (DEED) has approved the project for a 70% reimbursement rate from the State of Alaska. As State of Alaska funding is on a reimbursement basis, the eventual payments to be received have not been recognized in these financial statements. Furthermore, the State of Alaska reduced funding amounts in fiscal year 2020 and eliminated funding in fiscal year 2021 due to budget constraints from the levels originally approved by DEED.

In the event of default, the Alaska Municipal Bond Bank Authority (AMBBA) could intercept any amounts due to the Borough from the State of Alaska to satisfy the Borough's outstanding principal and interest payments due on the its private placement bonds sold to AMBBA.

The debt service annual requirements to amortize bond and note payable debt outstanding as of June 30, 2022, are as follows:

NOTE 10 – BOND REQUIREMENTS

Covernmental Activities:

The various bonds of the enterprise funds require establishment of certain cash reserves and maintenance of certain revenue levels.

The sewer revenue bonds required the establishment of a reserve account. The required reserve account was set up and fully funded in prior years. The reserve account balance at June 30, 2022, was \$91,079.

NOTES TO FINANCIAL STATEMENTS

These bond agreements also require that the Borough maintain sewer rates at a level which will produce an annual amount of Net Operating Revenue, as defined by the agreement, before depreciation equal to at least 1.25 times the maximum amount required each year for debt service. In fiscal year 2022, sewer fund Net Operating Revenues were \$141,646 and the debt service requirement was \$85,219 resulting in a ratio of 1.66.

NOTE 11 – RETIREMENT PLANS

The Borough participates the State of Alaska Public Employees' Retirement System (PERS). PERS is governed by the Alaska Retirement Management Board (the "Board" or the "System"), which consists of nine trustees, as follows: the Commissioner of the Department of Administration, the Commissioner of the Department of Revenue, two trustees who are members of the general public, one trustee who is employed as a finance officer for a political subdivision participating in either the PERS or Teachers' Retirement System (TRS), two trustees who are members of PERS, and two trustees who are members of TRS. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature. PERS issues a publicly available financial report that can be obtained at http://doa.alaska.gov/drb/pers/employee/ resources/index.html.

Description of Plans Available to Employees

The Borough provides three types of plans to its employees through its participation in PERS. A costsharing multiple-employer defined benefit (DB) pension plan administered by the State of Alaska is provided, which includes a defined benefit health plan under the State of Alaska Retiree Healthcare Trust (ARHCT), a healthcare trust fund of the State of Alaska. The DB, including ARHCT, was closed to all new members effective July 1, 2006.

A Defined Contribution Pension Plan (DC Plan) provides retirement benefits for eligible employees hired after July 1, 2006, as described in the Defined Contribution Pension Plan section below. PERS also includes a Retiree Medical Plan (RMP) which provides major medical coverage to all employees of the DC Plan.

An Occupational Death and Disability (ODD) plan provides death benefits for beneficiaries of plan participants and long-term disability benefits to all active members within the System. Together the ARHCT, RMP and ODD plans are referred to as Other Postemployment Benefits ("OPEB"), which are further described in the Defined Benefit Other Postemployment Benefit Plans (OPEB) section below.

State of Alaska PERS Defined Benefit Plan

Benefits Provided

PERS provides retirement, disability, death, and postemployment health benefits. Benefits vest with five years of credited service. Employees enrolled prior to July 1, 1986 with five or more years of credited service are entitled to annual pension benefits beginning at normal retirement age 55 or early retirement age 50. For employees enrolled after June 30, 1986, but before July 1, 2006, the normal and early retirement ages are 60 and 55, respectively. Employees with 30 or more years of credited service may retire at any age and receive a normal benefit.

Retirement benefits are calculated by multiplying the average monthly compensation (AMC) times credited PERS service times the percentage multiplier. The AMC is determined by averaging the salaries earned during the five highest (three highest for Police/Fire members or members hired prior to July 1, 1996) consecutive payroll years. Members must earn at least 115 days of credit in the last year worked to

NOTES TO FINANCIAL STATEMENTS

include it in the AMC calculation. PERS pays a minimum benefit of \$25 per month for each year of service when the calculated benefit is less.

The percentage multipliers for police/fire personnel are 2.00% for the first ten years of service and 2.50% for all service over 10 years. The percentage multipliers for all other participants are 2.00% for the first 10 years, 2.25% for the next 10 years, and 2.50% for all remaining service earned on or after July 1, 1986. All service before that date is calculated at 2.00%.

Postemployment healthcare benefits are provided without cost to all members first enrolled before July 1, 1986. Members first enrolled after June 30, 1986 and who have not reached age 60 may elect to pay for major medical benefits; thereafter they are provided without cost.

The Plan has two types of postretirement pension adjustments (PRPA). The automatic PRPA is issued annually to all eligible benefit recipients, when the cost-of-living increases in the previous calendar year. The automatic PRPA increase is paid beginning July 1 of each year. The discretionary PRPA may be granted to eligible recipients by the Plan's Administrator if the funding ratio of the Plan meets or exceeds 105%. If both an automatic and discretionary PRPA are granted, and a retiree is eligible for both adjustments, the one that provides the retiree the greater increase will be paid.

Contributions

Contribution requirements of the active plan members and the participating employers are actuarially determined and approved by the Board as an amount that, when combined, is expected to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The DB Plans members' contribution rates are 7.5% for peace officers and firefighters, 9.6% for some school district employees, and 6.75% for general DB Plan members, as required by statute. The Borough's effective contribution rate is 22.00% of annual payroll. Alaska Statute 39.35.280 states that the State of Alaska, as a non-employer contributing entity, shall contribute each July 1, or as soon after July 1 for the ensuing fiscal year, an amount that when combined with the total employer contributions is sufficient to pay the System's past service liability at the actuarially determined contribution rate adopted by the Board for that fiscal year. Additionally, there is a Defined Benefit Unfunded Liability (DBUL) amount levied against the Defined Contribution Retirement (DC) Plan payroll. The DBUL amount is computed as the difference between:

- (A) The amount calculated for the 22.00% statutory employer contribution rate on eligible salary, less
- (B) The total of the employer contributions for
 - (1) the defined contribution employer matching amount,
 - (2) major medical,
 - (3) occupational death & disability, and
 - (4) health reimbursement arrangement.

The difference is deposited based on an actuarial allocation into the DB Plan's pension and healthcare funds.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the Borough reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the Borough. The amount recognized by the Borough as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the Borough were as follows:

NOTES TO FINANCIAL STATEMENTS

Borough's proportionate share of the net pension liability	\$ 3,766,158
State's proportionate share of the net pension liability	
associated the Borough	608,487
Total Net Pension Liability	\$ 4,374,645

The Borough will record the entire net pension liability, including the State's proportionate share, if the State of Alaska no longer contributes its proportionate share as measured by the annual State contributions and provided under Alaska Statute 39.35.280. By changing the existing statute to a higher rate above and up to the actuarially determined rate, the Borough may be required to record some or all of the State's proportion and its contribution amounts will increase accordingly.

The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Borough's proportion of the net pension liability was based on a projection of the Borough's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the State, actuarially determined. At June 30, 2021, the Borough's proportion was .10266%, which was an increase of .01793% from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the Borough recognized a net pension benefit of \$288,672 including revenue of \$872 for support provided by the State. At June 30, 2022, the Borough reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		 rred Inflows Resources
Changes in Proportion and differences between employer contributions	\$	128,310	\$ -
Differences between expected and actual experience		-	16,685
Differences between projected and actual investment earnings		-	1,485,175
Borough contributions subsequent to measurement date		335,428	
Total	\$	463,738	\$ 1,501,860

Of the total amount reported as deferred outflows of resources related to pensions, \$335,428 resulting from Borough contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in the measurement year (fiscal year) as follows:

(233,510)
(340,195)
(367,997)
(431,848)

NOTES TO FINANCIAL STATEMENTS

Actuarial Assumptions

The total pension liability at the June 30, 2021 measurement date was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2021. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	For peace officer/firefighter, increases range from 7.75% to 2.75% based on service. For all others, increases range from 6.75% to 2.75% based on service. Graded service, from 6.75% to 2.75% for all others
Investment rate of return	n 7.38%, net of pension plan investment expenses. This is based on an average inflation rate of 2.5% and a real rate of return of 4.88%.
Mortality	Pre-commencement and post-commencement mortality rates were based upon the 2013-2017 actual mortality experience. Pre-commencement mortality rates were based on 100% of the RP-2014 employee table, benefit- weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Post-commencement mortality rates were based on 91% of male and 96% of female rates of the RP-2014 healthy annuitant table benefit- weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Deaths are assumed to be occupational 75% of the time for peace officer/ firefighters, 40% of the time for all others.

The actuarial assumptions used in the June 30, 2020 actuarial valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2017. As a result of this experience study, the Board adopted updated actuarial assumptions for the June 30, 2018 actuarial valuation to better reflect expected future experience.

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2021 are summarized in the following table (note that the rates shown below exclude an inflation component of 2.50%):

	Target Asset	Long-term Expected Real
Asset Class	Allocation	Rate of Return
Domestic equity	28.00%	6.63%
Global ex-US equity	19.00	5.41
Aggregate bonds	22.00	0.76
Opportunistic	6.00	4.39
Real assets	13.00	3.16
Private equity	12.00	9.29
Cash equivalents	-	.13

Discount Rate

The discount rate used to measure the total pension liability was 7.38%. The projection of cash flows used to determine the discount rate assumed that employer and nonemployer contributions will continue to

NOTES TO FINANCIAL STATEMENTS

follow the current funding policy which meets State statutes. Based on those assumptions, the pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Borough's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Borough's proportionate share of the net pension liability calculated using the discount rate of 7.38 percent, as well as what the Borough's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.38 percent) or 1-percentage-point higher (8.38 percent) than the current rate:

	Current					
	19	% Decrease	Di	scount rate	1	% Increase
		(6.38%)		(7.38%)		(8.38%)
Borough's proportionate share of the net						
pension liability	\$	5,578,205	\$	3,766,158	\$	2,243,806

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

Defined Contribution Pension Plan

Plan Description

The Borough participates in the State of Alaska Defined Contribution Pension Plan (DC Plan), Tier 4, which provides pension benefits and certain Other Postemployment Benefits (OPEB) benefits similar to those of the defined benefit plan for eligible employees hired after July 1, 2006. The State of Alaska Healthcare Reimbursement Arrangement Plan is also provided to allow medical expenses to be reimbursed from individual savings accounts established for eligible participants. The OPEB benefits are described further below. Additionally, certain active members of the DB Plan were eligible to transfer to the DC Plan if that member had not vested in the DB Plan. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature. The DC Plan is administered by the System.

Pension Benefits

A participating member is immediately and fully vested in that member's contributions and related earnings (losses). A member shall be fully vested in the employer contributions made on that member's behalf, and related earnings (losses), after five years of service. A member is partially vested in the employer contributions made on that member's behalf, and the related earnings, in the ratio of (a) 25% with two years of service; (b) 50% with three years of service; (c) 75% with four years of service; and (d) 100% with five years of service.

Contributions

Alaska statutes require an 8.0% contribution rate for DC Plan members. Employers are required to contribute 5.0% of the member's compensation. For the year ended June 30, 2022 and 2021, employee contributions totaled \$151,065 and \$152,030, respectively, and the Borough recognized pension expense of \$94,415 and \$95,050 respectively.

<u>Refunds</u>

A member is eligible to elect distribution of their account 60 days after termination of employment.

NOTES TO FINANCIAL STATEMENTS

Participant Accounts

Participant accounts under the DC Plan are self-directed with respect to investment options.

Each participant designates how contributions are to be allocated among the investment options. Each participant's account is credited with the participant's contributions and the appreciation or depreciation in unit value for the investment funds.

Record-keeping/administrative fees, consisting of a fixed amount, applied in a lump sum each calendar year, and a variable amount, applied monthly, are deducted from each participant's account, applied pro rata to all the funds in which the employee participates. This fee is for all costs incurred by the record keeper and by the State. The investment management fees are netted out of the funds' performance.

Defined Benefit Other Postemployment Benefit Plans (OPEB)

OPEB Benefits Provided

Major medical benefits under (ARHCT) are provided to retirees and their surviving spouses at no premium cost for all members hired before July 1, 1986 (Tier 1), and disabled retirees. Members hired after June 30, 1986 (Tier 2), and their surviving spouses with five years of credited service (or ten years of credited service for those first hired after June 30, 1996 (Tier 3)) must pay the full monthly premium if they are under age 60 and will receive benefits at no premium cost if they are over age 60. Tier 3 members with between five and ten years of credited service must pay the full monthly premium regardless of their age. Tier 2 and Tier 3 members with less than five years of credited service are not eligible for postemployment healthcare benefits. Tier 2 members who are receiving a conditional benefit and are age eligible are eligible for postemployment healthcare benefits. In addition, peace officers and their surviving spouses with 30 years of membership service receive benefits at no premium cost, regardless of their age or date of hire. Peace officers/firefighters who are disabled and retire between 20 and 25 years must pay the full monthly premium.

The Occupational Death and Disability Plan (ODD) provides death benefits for beneficiaries of plan participants and long-term disability benefits to all active members within the System.

The Retiree Medical Plan (RMP) provides major medical coverage to retirees of the DC Plan. The RMP is self-insured. Members are not eligible to use this plan until they have at least 10 years of service, and are Medicare age eligible.

Contributions

Employer contribution rates for major medical OPEB benefits to the ARHCT are actuarially determined and adopted by the Board as described in the PERS defined pension plan above. The 2022 employer effective contribution rate is 22.00% of member's compensation.

Employer contributions for the ODD plan are to each member's account based on the member's compensation. For fiscal year 2022, the rates are 0.70% for occupational death and disability for peace officers and firefighters, and 0.31% for occupational death and disability all other members.

Employer contribution rates for the RMP plan are actuarially determined and adopted by the Alaska Retirement Management Board (Board). For fiscal year 2022, the employer rate is 1.27% of member's compensation.

OPEB Liabilities (Assets), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

NOTES TO FINANCIAL STATEMENTS

At June 30, 2022, the Borough reported a liability (asset) for its proportionate share of the net OPEB liability (asset) for each OPEB plan which reflected a reduction for State OPEB support provided to the Borough. The amount recognized by the Borough as its proportionate share of the net OPEB liability (asset), the related State support, and the total portion of the net OPEB liability (asset) that was associated with the Borough were as follows:

	ARHCT	ODD	RMP	Total
Borough's proportionate share of the net OPEB liability (asset)	\$ (3,056,508)	\$ (62,741)	\$ (34,772)	\$ (3,154,021)
State's proportionate share of the net				
OPEB liability associated the Borough	(353,938)	-	-	(353,938 <u>)</u>
Total Net OPEB Liability (Asset)	\$ (3,410,446)	\$ (62,741)	\$ (34,772	\$ (3,507,959)

The Borough will record the entire net RMP OPEB liability, including the State's proportionate share, if the State of Alaska no longer contributes its proportionate share as measured by the annual State contributions and provided under Alaska Statute 39.35.280. By changing the existing statute to a higher rate above and up to the actuarially determined rate, the Borough may be required to record some or all of the State's proportion and its contribution amounts will increase accordingly.

The net OPEB liability (asset) was measured as of June 30, 2021, and the total OPEB liability (asset) used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The Borough's proportion of the net OPEB liability (asset) was based on a projection of the Borough's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers and the State, actuarially determined. At June 30, 2021, the Borough's proportion averaged .1191% for ARHCT, ODD and RM, which was a decrease of .0344% from the average of its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the Borough recognized a net OPEB benefit of \$442,673 including revenue of \$102,468 for support provided by the State. At June 30, 2022, the Borough reported deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

	 rred Outflows Resources	 erred Inflows Resources
Changes in proportion and differences between employer contributions	\$ 8,976	\$ 53,800
Changes in assumptions	10,807	136,647
Differences between projected and actual investment earnings	-	1,471,452
Differences between expected and actual experience	2,585	50,888
Borough contributions subsequent to measurement date	123,082	
Total	\$ 145,450	\$ 1,712,787

Of the total amount reported as deferred outflows of resources related to OPEB, \$123,082 resulting from Borough contributions subsequent to the measurement date and before the end of the fiscal year will be

NOTES TO FINANCIAL STATEMENTS

recognized as a reduction of the net OPEB liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense in the measurement year (fiscal year) as follows:

Year ended June 30:	
2022 (2023)	\$ (543 <i>,</i> 953)
2023 (2024)	(343,317)
2024 (2025)	(368,043)
2025 (2026)	(425,754)
2026 (2027)	(4,075)
Thereafter	(5,279)

Actuarial Assumptions

The total OPEB liability at the June 30, 2021 measurement date was determined by an actuarial valuation as of June 30, 2020, which was rolled forward to June 30, 2021. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.50% per year
Salary increases	Graded by service, from 7.75% to 2.75% for peace officer/firefighter
	Graded by service, from 6.75% to 2.75% for all others
Investment rate of return	7.38%, net of postretirement healthcare plan investment expenses. This is
	based on an average inflation rate of 2.50% and a real return of 4.88%.
Healthcare cost trend rates	Pre-65 medical: 7.5% grading down to 4.5%
	Post-65 medical: 5.5% grading down to 4.5%
	Prescription drug: 8.5% grading down to 4.5%
	Employee Group Waiver Plan (EGWP): 8.5% grading down to 4.5%
Mortality	Pre-commencement and post-commencement mortality rates were based
	upon the 2013-2017 actual mortality experience. Post-commencement
	mortality rates were based on 91% of the male rates and 96% of the
	female rates of the RP-2014 healthy annuitant table projected with MP-
	2017 generational improvement. The rates for pre-commencement
	mortality were 100% of the RP-2014 employee table with MP-2017
	generational improvement.
Participation	100% of system paid members and their spouses are assumed to elect the
	healthcare benefits as soon as they are eligible. 20% of non-system paid
	members and their spouses are assumed to elect the healthcare benefits
	as soon as they are eligible.

The actuarial assumptions used in the June 30, 2020 actuarial valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2017. As a result of this experience study, the Board adopted updated actuarial assumptions for the June 30, 2019 actuarial valuation to better reflect expected future experience.

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. Best estimates of arithmetic rates

NOTES TO FINANCIAL STATEMENTS

of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2021 are summarized in the following table (note that the rates shown below exclude an inflation component of 2.50%):

Target	Long-term
Asset	Expected Real
Allocation	Rate of Return
28.00%	6.63%
19.00	5.41
22.00	0.76
6.00	4.39
13.00	3.16
12.00	9.29
-	.13
	Asset Allocation 28.00% 19.00 22.00 6.00 13.00

Discount Rate

The discount rate used to measure the total pension liability was 7.38%. The projection of cash flows used to determine the discount rate assumed that employer and non-employer contributions will continue to follow the current funding policy, which meets State statutes. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability in accordance with the method prescribed by GASB Statement No. 67, *Financial Reporting for Pension Plans*.

Sensitivity of the Borough's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate The following presents the Borough's proportionate share of the net OPEB liability (asset) calculated using the discount rate of 7.38 percent, as well as what the Borough's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.38 percent) or 1-percentage-point higher (8.38 percent) than the current rate:

		Current							
		19	% Decrease	Di	iscount rate	1%	6 Increase		
_			(6.38%)		(7.38%)		(8.38%)		
	ARHCT	\$	(1,843,942	\$	(3,056,508)	\$	(1,713,267)		
	ODD	\$	(60,078)	\$	(62,741)	\$	(64,863)		
	RMP	\$	154,968	\$	(34,770)	\$	(533 <i>,</i> 820)		
-	ODD	\$ \$ \$	(1,843,942 (60,078)	\$	(3,056,508) (62,741)	\$ \$	(1,713,267) (64,863)		

<u>Sensitivity of the Borough's Proportionate Share of the Net OPEB Liability to Changes in Healthcare Cost</u> <u>Trend Rates</u>

The following presents the net OPEB liability (asset) for the ARHCT and ODD plans as of June 30, 2022, calculated using the healthcare cost trend rates as summarized in the 2020 actuarial valuation report, as well as what the respective amount for each plan's net OPEB liability would be if it were calculated using trend rates that are one-percentage-point lower or one-percentage-point higher than the current healthcare cost trend rates (trend not provided for ODD as healthcare is not a component of the measurement of the liability or asset):

	Current							
	19	% Decrease	-	Trend Rate	1	<u>% Increase</u>		
ARHCT	\$	(4,037,575)	\$	(3,056,508)	\$	(1,872,616)		
RMP	\$	(576,244)	\$	(34,770)	\$	224,212		

NOTES TO FINANCIAL STATEMENTS

OPEB Plan Fiduciary Net Position

The separately issued PERS financial report has more information about the OPEB plan's net position.

Total Deferred Outflows of Resources and Inflows of Resources

Total deferred outflows of resources and deferred inflows of resources presented in the Statement of Net Position consists of the following at June 30, 2022:

	Defe	rred Outflows	Def	erred Inflows
	of	Resources	of	Resources
Pension Related	\$	463,738	\$	1,501,860
OPEB Related		145,450		1,712,787
Total	\$	609,188	\$	4,123,156

NOTE 12 - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund balances represent cash collected or disbursed on behalf of another fund. The composition of interfund balances as of June 30, 2022, was as follows:

	Inter	Interfund Balances						
	Due from	n D	ue to other					
	other fun	ds	funds					
General Fund	\$ 34,5	558 \$	7,836,382					
Permanent Fund		-	99,594					
Captial Project Funds	132,1	L46	-

funds	417,683	-		26,119		-	-	-		-		-		-		443,802
Total	\$ 908,099	\$ 187,851	\$	26,119	\$ 110,75	6\$	135,142	\$ 136,835	\$	195,173	\$	52,683	\$ 37	,525	\$	1,790,183

Transfers between funds are in accordance with the Borough Code and budgetary authorizations, and are generally used for capital outlay and operations.

NOTES TO FINANCIAL STATEMENTS

NOTE 13 - RISK MANAGEMENT

Haines Borough is exposed to numerous risks of loss associated with the operations of a government. These potential losses include, but are not limited to, employee relations and injuries, contracts, theft, loss or damage of property, natural disasters and general liability. The Borough manages its risks from these potential losses by participating in Alaska Public Entity Insurance (a governmental insurance pool), as well as purchasing commercial insurance coverage. This insurance has provided the Borough with adequate coverage in the past. The Borough's insurance is on a claims-occurred basis, except for public officials' coverage which is on a claims-made basis. There were no significant changes in insurance coverage obtained and there were no claims or settlements that exceeded insurance coverage in any of the past three fiscal years.

The Borough, in the normal course of its activities, is involved in various claims and pending litigation. In the opinion of management and legal counsel, the disposition of these matters is not expected to have a material adverse effect on the Borough's general-purpose financial statements.

NOTE 14 - PERMANENT FUND

The Borough Assembly has established the Haines Borough Permanent Fund ("the Permanent Fund"). Any deposits into the Permanent Fund shall not be spent, but shall be held perpetually in trust for the benefit of the present and future generations of Borough residents.

Deposits into the Permanent Fund consist of net proceeds from the sale of municipal lands, less amounts allocated by the Assembly for construction of public improvements within local improvement districts. These land sales and public improvements are originally recorded in a special revenue fund (Municipal Land Disposal Special Revenue Fund). At the end of each fiscal year, the excess of revenue over expenditures in this fund is transferred as deposits to the Permanent Fund.

Income from permanent fund investments sufficient to offset the effect of inflation on principal is retained in the fund annually. The amount is calculated by computing a 3-year average of the rates of change of the Consumer Price Index and applying it to the principal balance. After inflation proofing, income derived from Permanent Fund investments may be used as designated by the Borough Assembly after consideration of public input. Income available for Borough expenses may not exceed 3.5% of the average total market value of the fund for 3 of the 4 fiscal years immediately preceding the budget year.

NOTE 15 - PANDEMIC

On March 11, 2020, Governor Dunleavy declared a public health disaster emergency under State law, as a result of COVID-19. During fiscal years 2020 through 2022, the federal and state governments extended and retracted emergency declarations and refined emergency orders to allow for a measured expansion of economic and social activities in the State and its municipalities. Travel restrictions were modified and then eliminated to allow for more travelers to enter the state for work, commerce, tourism, and other purposes. Borough facilities, businesses, recreational, cultural, and other facilities have reopened with restrictions and new measures designed to preserve the public health.

On March 27, 2020. the "Coronavirus Aid, Relief and Economic Security (CARES) Act" was signed into law The CARES Act, among other things, appropriated funds for the Coronavirus Relief Fund to be used to make payments for specified uses to States and certain local governments. In December 2020, the

NOTES TO FINANCIAL STATEMENTS

Consolidated Appropriations Act" was signed, extending the period of availability for CARES Act funds and providing other funding. In March 2021, the American Rescue Plan Act (ARPA) was enacted, providing more funds for State and local governments. The Borough has been awarded, received and expended amounts from the federal government, much of which was passed through the State of Alaska:

	А	warded	F	Received	E	xpended
CARES Act Coronavirus Relief Fund	\$	4,007,216	\$	4,007,216	\$	4,007,216
ARPA		1,108,690		862,979		375,552
Other programs		114,630		58,762		118,530
Total	\$	5,230,536	\$	4,928,957	\$	4,501,298

The Borough made significant reductions to its budgets for fiscal years 2020, 2021 and 2022 as a result of the pandemic. The financial and social impact of the pandemic continues to evolve through the date of this report, and so it is uncertain as to the full magnitude the pandemic will have on the Borough's current and future operations, financial condition and liquidity. Borough management continues to monitor the pandemic and is working to reduce its impact to the extent practical.

NOTE 16 – CONSTRUCTION COMMITMENTS

At June 30, 2022, the Borough had the capital projects commitments in two funds which are funded by federal and State of Alaska grant revenue:

			Expended		F	Remaining			
	Au	thorization	to date		Commitmen				
Young Road FEMA Repairs	\$	2,256,880	\$	-	\$	2,256,880			
Chilkoot Loop Retaining Wall Repairs		105,628		-		105,628			
Boat Harbor Fund Gangway Repair		245,947		-		245,947			
Total	\$	2,608,455	\$	-	\$	2,608,455			

NOTE 17 – NEW ACCOUNTING PRONOUNCEMENTS

The Governmental Accounting Standards Board has issued several new accounting standards with upcoming implementation dates. The following new standards were implemented by the Borough during the current fiscal year:

<u>GASB 87</u> - *Leases* - This statement addresses accounting and financial reporting for certain lease assets and liabilities for leases that previously were classified as operating leases. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Through its implementation of the new standard, the Borough recorded five general governmental leases receivable and one lease receivable for Lutak Dock in which the Borough leases real property to unrelated entities. As a result of the implementation, the General Fund recorded lease receivables and corresponding deferred inflows of resources of \$647,967, and Lutak dock recorded lease receivable and deferred inflows of resources as of June 30, 2021 of \$282,145. See also Note 7.

<u>GASB 96</u> – *Subscription-based Information Technology Arrangements* – Through its implementation of the new standard, Borough management reviewed its existing contracts to determine if any met the

NOTES TO FINANCIAL STATEMENTS

criteria for reporting as subscription-based information technology arrangements (SBITAs) under the new standards. No such contracts were identified.

The following standards are required to be implemented in coming financial reporting periods. Management has not fully evaluated the potential effects of these statements.

<u>GASB 91</u> – *Conduit Debt Obligations* – Effective for fiscal year 2023, the primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures.

<u>GASB 94</u> – Public-private and Public-public Partnerships and Availability Payment Arrangements – Effective for fiscal year 2023, the objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs).

<u>GASB 101</u> – *Compensated Absences* – Effective for fiscal year 2024, the objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. GASB 101 also establishes guidance for measuring a liability for leave that has not been used.

Other Postemployment Benefit

This schedule is presented to illustrate the requirement to show information for 10 years. However, GASB 75 was implemented in the fiscal year ended June 30, 2017, and, until a full 10-year trend is compiled, the Borough has only presented information for the years in which information is available.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

June 30, 2021

NOTE 1 – BUDGETARY INFORMATION

The Borough follows these procedures in establishing the budgetary data reflected in the general-purpose financial statements:

- a. No later than April 1 the Borough Manager shall submit to the Borough Assembly the proposed budget for the following fiscal year, along with a budget message which shall explain the proposed budget. It will also identify the six-year Capital Improvements Program (CIP) list.
- b. No later than June 1, a minimum of two public hearings are conducted to obtain taxpayer comments.
- c. On or before June 15, the budget is legally enacted through passage of an ordinance.
- d. The Borough Assembly may pass ordinances during the year that amend the budget.
- e. The Manager may transfer part or all of any unencumbered balance to another classification within a department.
- f. The Manager may transfer balances from one department to another only with the approval of the assembly through re-appropriation.
- g. Appropriations for the general fund and special revenue funds lapse at year-end. Appropriations for capital projects and those needed to meet grant requirements lapse when the project is complete or abandoned.
- h. The Borough's legally prescribed budgetary basis of accounting is consistent with accounting principles generally accepted in the United States and, accordingly, where budgetary data are presented, the budget and actual information conform to the same basis of accounting.

Excess of Expenditures over Appropriations

For the year ended June 30, 2022 the following departments incurred expenditures in excess of their appropriations:

				Exp	enditures	
	Budget	Exp	enditures	Over Budget		
General Fund:						
Parks	\$ 62,624	\$	87,577	\$	(24,953)	
Public Works	729,576		757,307		(27,731)	
	\$ 792,200	\$	844,884	\$	(52,684)	

NOTE2 – PUBLIC EMPLOYEES' RETIREMENT SYSTEM

GASB requires a ten-year presentation for the Schedules of The Borough's Proportionate Share of the Net Pension and Other Postemployment Benefit Liabilities, and Schedules of Borough Contributions; however, until a full ten years of information is available, the Borough will present only those years for which information is available.
