Dear Planning Commissioners,

I am writing to implore you not permit the development of the Lutak dock rebuild insofar that it may benefit Yukon mining interests. Our community has consented only to a simple repair of existing infrastructure, not to becoming an industrial conduit for exports. Ore transport has been historically risky in and around anadromous waterways, not to say anything of increasing traffic on a road used by families, tour operators, and schoolbuses. Public process within the Ports and Harbor Advisory committee was not prioritized in the March 24th meeting, which of course damages citizens' trust in government. Please consider moving forward on the simplest repairs required to maintain a functional dock for Haines.

Thanks for your consideration,
Ben Aultman-Moore
