Dear Planning Commissioners,

I feel quite strongly that the process of integrating Yukon mining interests into our lives (for good OR bad), be slowed down.

Please, before there are any votes/decisions, the public needs to be more informed than it is presently. Information concerning all aspects (duration of the mine's life, number of trucks per day/yr., integrity of shipping containers, aspects of Phase 3, etc.) of this proposed project must be distributed thoroughly and thoughtfully. Then, when this has occurred, discussions on this subject can move on intelligently.

The results of the steps taken now could well affect us for many years to come.

Thank you for the service you do and kindly consider these words.

Sincerely,  
Jeff Bochart
