Dear HBPC,

I urge you to uphold the conditions placed on the 35 Mile Heliport CUP for an operational season between February 1 and May 1. The purpose of the Conditional Use Permit is to restrict use that has real and potential impacts on neighbors both present and future.

Helicopters are significant sources of noise pollution. To allow this activity to occur year round on this parcel of property would not be fair to the residents or wildlife of the Upper Chilkat Valley.

In addition the CUP should be reviewed every three years for compliance. Allowing the designated use for the heliski season fulfills the requested need.

Sincerely,
Thom Ely
