

# Haines Borough Burn Permit

Annual Burn Permits are required for open burning activity in any fire service area of the Haines Borough except campfires or BBQ grills. Any larger open burning activity must be approved by a site inspection done by Borough Fire Personnel and/or State Forestry.

**Fires outside of a burn barrel and larger than 10' in diameter and 4' in height require advance notification to dispatch (766-6430). Identify yourself, the physical location of the burn and what you will be burning. You will be briefed on daily burning conditions and any restrictions that may apply for that day to help you plan for a safe burn.**

**Haines Borough Code 15.08.080:** Annual burn permits required. An annual burn permit is required to burn combustible materials outdoors within any fire service area. Such permit shall be authorized by the fire chief of the designated district or the fire chief's designee.

- A. The written burn permit must be applied for annually.
- B. The annual burn permit shall stipulate prohibited burnables according to state and local laws.
- C. Fires outside of a burn barrel and larger than 10 feet in diameter and 4 feet high require advance notification to dispatch.
- D. Burning shall be permitted only between the hours of 7:00 a.m. and 8:00 p.m ..
- E. Stump burnings that cannot be doused by the deadline may be allowed to smolder upon approval provided a burning is not propagated with additional stumps and brush after 8:00 p.m.
- F. This ordinance does not apply to campfires or BBQ grills.

## **Safe Burning Requirements Apply to all Controlled Burning (burning is only authorized subject to the following conditions)**

- No burning during windy periods.
- Construct a fire break 10 feet wide down to mineral soil around the pile to be burned before lighting the fire.
- At least 1 adult must attend the fire at all times until the burning pile is completely out.
- When preparing to burn a lawn, mow the area, rake it and wet down the outer 8 foot perimeter.
- At least 3 adults must be present for a lawn burn.
- You must have sufficient tools and water at the site to control the fire.
- Do not burn piles or burn barrels within 30 feet of structures or under utility lines.
- No burning is allowed of any substance which creates black smoke, toxic gases or odors which affect nearby persons.

## **Burn Barrels**

Burn Barrels may be included under burn suspensions and burn closures.

You may only burn paper products, untreated wood and organic debris in your burn barrel.

Clear all flammable material and vegetation away to 6 feet around the entire barrel.

## **Pile Burning (10 ft or less)**

At least 1 adult must immediately attend the fire until the burn pile is completely out and cold to the touch.

Only burn 1 single debris pile at a time with a pile 10' in diameter or less and no more than 4' in height.

Keep the pile small and manageable, feeding the pile as you burn.

Only untreated, unpainted wood and organic material may be burned.

Clear all flammable material and vegetation to mineral soil 10 feet from around your pile and stay 30 feet away from structures and power lines. Do not burn under power lines.  
You must have at least one hand tool and sufficient water on site to control the fire.

## Large Scale Burning

Debris piles larger than 10 feet in diameter must be inspected by Fire personnel in all fire service areas in the Haines Borough.

---

I have read the above information and agree to follow the above burn permit stipulations. I understand that I am subject to code violation penalties (HBC 1.24.010 and HBC 15.08.080)

**It is the intention of the Haines Borough, in cooperation with the State Division of Forestry, to assist community members in completing burning projects safely and effectively. According to State Law, an individual that starts a fire (controlled burn) for any reason will be responsible for any property damage, loss and all fire suppression costs incurred to extinguish a fire that is the result of an escaped control burn.**

**The Haines Borough burn permit program is designed to provide technical assistance *before* a burning project takes place, to *prevent* property damage and loss through negligence on the part of the responsible individual.**

**This is a NO COST service provided for public safety and benefit. STAY INFORMED, STAY SAFE!**
